ARCHED ELEGANCE
CERONA

It starts with patented, heat-radiating FireBrick® material. Skillfully molded with seamless cantilevered corners and textured detail, the Cerona takes form. It ends in the only true-arched fireplace of its kind—a modern take on an enduring classic. In 36 and 42-inch sizes.

VIVID FIRES
The flames within the Cerona rise up through an elevated FireBrick burner. It warms. It glows. And adds depth to a luminous ember bed.

VARIABLE HEAT
Easily adjust the powerful heat output of the Cerona. Up to 30% turndown helps create your ideal warmth. Optional technologies can also distribute heat to other areas of the home.

FRONT OPTIONS
Select a front for a custom look. Available in black, graphite or new bronze.

CERONA TECHNOLOGIES

INTELLIFIRE™ IGNITION SYSTEM
The IntelliFire™ Ignition System (IPI) is an advanced intermittent pilot ignition system. IPI constantly monitors ignition, ensures safe functioning and conserves up to $10/month in energy costs.

FIREBRICK® TECHNOLOGY
FireBrick is a patented, energy-saving ceramic material molded into an authentic masonry design. FireBrick produces up to 25% more radiant heat than metal fireboxes—heating rooms faster and using less fuel. This increases efficiency and reduces heating costs.

DIRECT VENT TECHNOLOGY
Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

HEAT ZONE TECHNOLOGY
Draw heat from the Cerona into another room of the home, up to 20 feet away. When a heat zone kit is run continuously, it will redirect up to 25% of the fireplace’s heat to another area, thus reducing wall temperatures above the fireplace. Two heat zones run continuously will redirect up to 50% of the fireplace’s heat.

FINISHES
BLACK  GRAPHITE  NEW BRONZE

OPTIONAL REMOTE
Set the mood from a distance with an optional remote.
